

Read the following from one of the doctors who retired to do Nikken full time after his son's dramatic reversal of Turrets Syndrome with Nikken products and another whose wife's testimonial brought him aboard as well. All of us "skeptics" came around only after heart wrenching experiences on ourselves or our family members. Trust me, folks, we are all alike at the unset-skeptical and cynical until something wakes us up. You are not unique. Please do not stay asleep too long as life is short and health can be fleeting.

I, personally, start and end each day with a five minute spin over my head with the Power Mag as one of my many challenges has been intense, debilitating vertigo. It also rides around in a golf cart with me to assure that the back (which I never fused-against the advice of doctors) does not hinder or terminate my game. I now firmly believe in energy medicine and its roll in the future of wellness.

One who knows,

Elsa Boynton (Dimaond)

The Nikken POWER-MAG offers revolutionary technology

The POWER-MAG is proving to be a remarkable, life-changing and revolutionary device.

Take the case of the Vietnam vet who was shot in the knee by an AK-47. Doctors told him that he would need crutches for the rest of his life. Using the POWER-MAG for just 10 minutes at a time for a few days, he is now walking without the use of crutches and is able to play a full round of golf, walking from hole to hole for the first time in 30 years.

Or, consider the story of the gentleman who had intractable lower back pain for 10 years. It got so bad he couldn't bend down to pick up a bar of soap if it fell while taking a shower. He was seriously considering surgery when, as a last-ditch measure, he agreed to try the POWER-MAG. He turned it on, wedged it between his couch cushions, laid on it so that his lower back was directly on top of it and fell asleep. As he got up later to use the bathroom, he noticed something different when he bent down to lift the toilet lid and, for the first time in five years, felt NO PAIN in his lower back. He then bent all the way down to touch the floor – something he wouldn't even think of doing before. Again, no pain! A week later, he gratefully admitted that the POWER-MAG had cured his lower back problem.

There are thousands of stories.

What's more amazing is that they are stories from people who didn't believe in magnetic therapy...
to begin with!

So what makes the POWER-MAG so incredibly effective?

It's all in the technology. The POWER-MAG is a result of years of study and observations on the therapeutic effects of magnetic fields. Drs. Jiri Jerabek and William Pawlik in their book, "Magnetic Therapy in Eastern Europe," outline 30 years of clinical research on the effects of magnetic fields on the human body. They discuss numerous studies, which show the effectiveness of magnetics on illnesses from back pain to macular degeneration.

Consider when a magnetic sphere is spun. The field emanating from the sphere cuts through space at a certain frequency, so that the field is no longer static (dead) – it is dynamic (invigorated). When this is applied to biological tissue, the tissue is receiving energy at a higher level than what occurs at its static field alone. The magnetic field affects charged particles in the body's tissue – the fuel that make nerves work – but ONLY if the charged particle and/or the magnetic field is moving at right angles to each other. When a magnetic field is swept across the body, some nerves will be affected, some will not. Because we can't ever determine the optimal angle a magnetic field should move through the body, we've created an automatic spin AND rotating magnetic sphere in the POWER-MAG that creates direct contact of ALL the possible points and angles of the body's charged particles.

The POWER-MAG is a device which, for the first time, automatically produces bi-axial magnetic rotation for therapeutic use. There's never been any magnetic device like it.
It's truly..... revolutionary.

Placebo?

Try holding the Power-Mag next to an animal that limps because of a painful issue. When you see, within 10-20 minutes, that animal walking without the limp.... will you {OR ANYONE} be able to explain that with the placebo argument?????

A FEW POWER-MAG TESTIMONIALS

From the files of Dr. John Jackson in Santa Cruz, California, come the following case histories. All involve recent real life experiences with the use of Nikken's Power-Mag.

1. Marilyn makes her home in Aptos, California. Last year she discovered a lump in her breast. On ultrasound the cyst measured 2.5 centimeters. Marilyn's healthcare provider made referral to a surgeon. Due to the cyst's size, aspiration and even excision came up for consideration. Four months ago 3 minis were placed around the lump 12 hours each day and Nikken's Power-Mag was used frequently. Last week on reevaluation... the mass could not be detected.

2. Gene resides in Monterey, California. He suffered more than a year with foot discomfort. His podiatrist diagnosed a Morton's neuroma. Special exercises and form-fitted footwear failed to help. The aggravating foot condition interfered with daily activities. Corticosteroid injection and surgery were offered. Gene was quite reluctant. Still he later expressed considerable skepticism when offered 30 minutes of treatment with a Power-Mag. Soon after the biaxial rotation magnetic device was placed next to his foot he fell asleep. The next day, walking around a large shopping mall, he sheepishly confessed that he felt no foot discomfort whatsoever.

3. My wife, Annette, I live in Santa Cruz, California. She has an extensive history of dental problems. The last time sensitivity to temperature changes reappeared in a tooth, she determined to take matters into her own hands and avoid yet another root canal. Power-Mag usage was tried for 10 minutes both sides of the jaw each night. In less than a month temperature sensitivity ceased. At her next dental visit, the hygienist measured the gums and found 10 out of 12 areas markedly improved.

4. Mrs. Huh, an 81 year old South Korean immigrant, is now from Los Angeles, California. She had been bothered by distressing palpitations for a long time. Late last year her daughter developed the same chest fluttering, sometimes more than 50 episodes per day. Sharing her mother's preference to avoid medications, the daughter tried placing Nikken's Power-Mag over the heart 15 minutes at night. From that moment forward the palpitations quit. Excitedly, she shared the discovery with her mother. Mrs. Huh used the same technique and obtained relief.

5. Dr. Chong, a family practice physician, works in the east San Francisco Bay Area. Unsuccessful in getting pregnant she consulted specialists at Stanford University. An endometrial biopsy was obtained and the specimen was reviewed by a world renowned expert at Johns Hopkins University. Due to antibodies formed against her own uterus, this extremely rare condition was judged hopeless. The specialists advised adoption. Instead, Dr. Chong tried Nikken's Power-Mag, PiMag water, the sleep system and certain nutritional. Within 1 month she became pregnant. The baby was brought to a recent product launch.

Medical records usually remain confidential and privileged material. I want to thank the individuals above for sharing their experiences, hoping to help others. In over 20 years as an internal medicine specialist I have encountered nothing safer, simpler or more successful in securing wellness than Nikken's life changing technologies. "To share or not to share?" What an indefensible question! As wellness consultants, it is our moral obligation to share Nikken.

“MY ROOT CANAL EXPERIENCE... AND THE POWER-MAG”

I was having mild tooth pain. Yesterday morning, I went to the dentist at 9:30. I was diagnosed with a cracked tooth. (Don't chew un-popped popcorn kernels!). I was told the crack was so deep that I needed a root canal. I have not had even a cavity since I was 13, so this was ALL NEW TO ME.

Due to complications and VERY LONG & DEEP tooth roots (and pulp canals), I was referred down the street to an endodontist. (Of course while I was there, everyone who used my Power-Mag (I ALWAYS carry it w/ me) for their problems (back pain, neck pain, sinus headache and carpal tunnel syndrome) had a positive product result and I am going to go into both offices to demonstrate more of the products... and get them fully educated about the whole wellness home.

By 4:45... I was done. The endo told me that due to all of the "extra work' he had to do (with excessive force), I would have quite a bit of pain and swelling. I asked him if I could go to the Wellness Preview (that night) and he said that I could, but take all of the meds he gave me.... "and do not drive."

Well..... Super-Minis and the Power-Mag were ALL I USED. I DROVE to the preview without pain, without drugs and without swelling! People there made me open my mouth to prove that I had a root canal.

I just wanted to share 2 points (see above and below) with you:

On a personal level:
USE THESE PRODUCTS!!!!

On a personal & business level:
CARRY THE POWER-MAG WITH YOU... AT ALL TIMES!!!
Having people "feel-it-for-themselves" is worth more than 100 studies
and 10,000 words, from you.
